

## La Turquie Hardenduro

Enduro entre les montagnes Taurus et le Mediterranee

Turkey is a paradise for Enduro riders. Our base is situated in Fethiye, directly at the coast of Mediterranean Sea. We can practice Enduro riding here all year long. Certainly it might be quite hot in July and August. The local motor club organized in 2010 and 2011 races to the Enduro World Championship in this area. You need only two words to describe the Enduro area: ingenious and no limits! It is not a dream, it is real: You see a mountain at the horizon and you decide to climb it with your bike and this is exactly what you will do !!

More Enduro fun in one week on the newest Husqvarna bikes is difficult to find, what are you waiting for ??
