

Patagonia

The paradise for Motorcycle adventurers

The quotation "Going South" gets a whole new meaning on this 16-day ultimate motorcycling experience. In stages this tour will challenge your steadiness and skill as we will be riding to one of the most southerly areas reachable by vehicles in the world. "

However we will begin our tour in the fishermen's port Puerto Montt. From Chiloe to Chaiten we travel by boat and continue on the famous Carreterra Austral, constructed under unbelievable conditions in the cool rain forests of south Chile. Our BMW GS models bring us reliable and comfortable in the southern direction of the continent.

On Ruta 40 awaits those of you who are usually plagued by traffic jams at home: 700 Kilometers driving over gravel, two gas stations, and the whistling of the wind. 60 meters high and 13 km long is the glacier Perito Moreno over which the condor glides in the morning air in elegant circles, watching us from the air. Fortunately he knows that tough motorbike riders are not very tasty.....

Hilly steppes, emerald green seas, and hissing waterfalls that gush into the glacier and in the background vertical rock towers and ice covered mountains - that is Paine National Park which we will reach the next day. Probably one of the most stunning landscapes on earth.

When we get on the plane in Punta Arenas, it will be hard to leave. We will be leaving many things behind which we learned to love and not only our motorbikes. A challenging, marvellous motorbike trip with unforgettable impressions. The 3000 km were not easy. To be honest, without the challenges it would not have been so beautiful.

Tour Plan

- Dia 1** Flight to Santiago de Chile
- Dia 2** Arrival at Santiago und visit to town.
- Dia 3** Flight to Puerto Montt, take over bikes and excursion to Parc Nacional Alerce.
